

COOLIDGE ISD STUDENT ACCEPTABLE USE AGREEMENT

Introduction:

Electronic information resources are available to qualifying students in the Coolidge Independent School District. These resources include access to the Internet and other network files or accounts. Our goal in providing electronic services to students is to promote educational excellence by facilitating resource sharing, innovation, and communication.

Scope:

Internet access is coordinated through a complex association of government agencies as well as regional and state networks. Worldwide access to computers and people may involve the availability of materials considered to be inappropriate, illegal, or of no educational value. On a global network it is virtually impossible to control all materials. However, through a **filtering and monitoring** system, the District has taken precautions to restrict access to inappropriate materials. Users who access, publish or attempt to access or publish inappropriate material or illegal Internet sites, will be subject to discipline; which may include the possibility of suspension or expulsion.

The smooth operation of the network is dependent upon the proper conduct of the users who must adhere to strict guidelines, rules and regulations. Such are provided so that student users are aware of the responsibilities they are about to accept. In general, their responsibilities necessitate acceptable, ethical, and appropriate utilization of the electronic network resources.

Terms and Conditions of this Acceptable Use Agreement:

Each student applying for an account will be educated in the proper behavior and use of the network as per the Children's Internet Protection Act (CIPA) and CISD Policy CQ. The combined signatures at the end of this document indicate the student and parent/guardian have carefully read and understood the terms and conditions of appropriate use and thereby agree to abide.

1. **Acceptable Use:** Acceptable use means that a student uses the Internet and other electronic information resources in an appropriate manner, abiding by the rules and regulations as described in this agreement. Students who "publish" on the Internet, must abide by the approved publishing procedures and district guidelines, which include informing, and involving a content sponsoring teacher.

2. **Privileges:** The use of electronic information resources is a privilege, not a right. Use of the district's resources shall impose no tangible cost on the district, shall not duly burden the district's technology resources and will have no adverse effect on the student's academic performance. Inappropriate use of these resources may result in disciplinary action (including the possibility of suspension or expulsion), and/or referral to legal authorities. The principal, teacher/supervisor or systems administrator may limit, suspend or revoke access to electronic resources at any time.

COOLIDGE ISD STUDENT ACCEPTABLE USE AGREEMENT (con't.)

3. Children's Internet Protection Act (CIPA) (Policy CO):

As part of its Internet safety policy, districts must educate minors about appropriate online behavior and appropriate use, including interacting with other individuals on social networking Web sites and in chat rooms and cyberbullying awareness and response. 47 U.S.C. 254(h)(5)(B)(iii).

The District has adopted and implemented an Internet safety policy that addresses:

- Access by minors to inappropriate matter on the Internet and the World Wide Web;
- The safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;
- Unauthorized access, including "hacking," and other unlawful activities by minors online by providing filters for all Internet enabled computers within the ISD;
- Unauthorized disclosure, use, and dissemination of personal identification information regarding minors; and
- Measures designed to restrict minors' access to materials harmful to minors. 47 U.S.C. 254(l)

4. **Network Etiquette:** Each student is expected to abide by the generally accepted rules of user etiquette. These rules include, but are not limited to the following:

Be polite. Never send or encourage others to send abusive messages. Use appropriate language. (Whatever is written, sent, or received on an isolated terminal has the potential to be viewed globally.) Use electronic mail appropriately, no sales, advertisements or solicitations, etc. E-mail is not guaranteed to be private. Everyone on the system has potential access to mail. Parents or legal guardians may gain

access to their student's e-mail upon request. Messages relating to or in support of illegal activities or inappropriate activities, as pertaining to this Acceptable Use Policy, must be reported to the principal, teacher/supervisor or systems administrator.

5. Unacceptable Network Use:

Transmission or intentional receipt of any inappropriate material or material in violation of law or district policy is prohibited. This includes, but is not limited to: copyrighted material; threatening or obscene material; material protected by trade secrets; commercial activities by for-profit institutions; use of product advertisement or political lobbying, including lobbying for student body office; the design or detailed information pertaining to explosive devices, criminal activities or terrorist acts; sexism or sexual harassment; pornography; gambling; illegal solicitation; racism; and inappropriate language. Illegal or inappropriate activities, including games, use of the network in any way that would disrupt network use by others, or activities of any kind that do not conform to the rules, regulations and policies of the Coolidge Independent School District, are forbidden.

COOLIDGE ISD STUDENT ACCEPTABLE USE AGREEMENT (con't.)

6. **Vandalism:** Vandalism is defined as any malicious attempt to harm or destroy property of the user, another user or of any other agencies or networks that are connected to the Network or the Internet system. Vandalism also includes, but is not limited to: abusive overloading of data on the server, or the uploading, downloading or creation of computer viruses. Any engagement in network vandalism constitutes unacceptable use and will subject the student to appropriate disciplinary action.

7. **Security:** Security on any computer system is a high priority because of multiple users. Do not use another individual's account nor log onto the system as the systems administrator. Any security concern must be reported to the principal, teacher/supervisor or systems administrator.

8. **Privacy:** It is advised that students not reveal personal information, such as: home address, phone numbers, password, credit card numbers or social security number, etc.; this also applies to others' personal information or that of organizations. When publishing on the Internet, students' pictures should not be identifiable by name.

9. **Service Disclaimer:** The Coolidge Independent School District makes no warranties of any kind, whether expressed or implied, for the service it is providing. Coolidge Independent School District will not be responsible for any damages the student may suffer while on this system. These damages may include, but are not limited to: loss of data as a result of delays, non-deliveries, mis-deliveries, or service interruptions caused by the system or by student error or omission. Use of any information obtained via the information system is at the student's own risk. Coolidge Independent School District specifically denies any responsibility for the accuracy of information obtained through electronic information resources.

Student Signature of Agreement:

Rules of conduct are described in this "Student Acceptable Use Agreement for Davis School District" and apply when the electronic information system is in use. I understand any violations of the above provisions will result in the loss of my user account and may result in further disciplinary and/or legal action, including but not limited to suspension or expulsion, or referral to legal authorities. I therefore agree to maintain acceptable standards and to report any misuse of the system to the appropriate teacher or administrator. Also, should I choose to "publish" on the Internet, I will work under the guidance of a content sponsoring teacher.

Misuse or violation of this agreement comes in many forms, but can be viewed as any messages, information or graphics sent or received that include/suggest pornography, unethical or illegal solicitation, racism, sexism, inappropriate language, and/or other listings previously described in this user agreement. I agree to report any misuse of the electronic information resources to my principal, teacher/supervisor or systems administrator.

COOLIDGE ISD STUDENT
ACCEPTABLE USE AGREEMENT (con't.)

I have read this Acceptable Use Agreement and understand that Internet sites are filtered and that Internet use on my district computer may be monitored. I hereby agree to comply with the above described conditions of acceptable use.

Student Name (please print): _____ Grade: _____

Student Signature: _____ Date: _____

PARENT OR GUARDIAN:

As the parent or guardian of the above named student, I have read this Acceptable Use Agreement and understand that Internet sites are filtered and that electronic information resource accounts may be monitored. I understand my child may be disciplined for inappropriate or unacceptable use of electronic information resources. I further understand that student use of the electronic information resource system is designed for educational purposes. I understand that it is impossible for Davis School District to filter or restrict access to all inappropriate materials. I will not hold the Davis School District responsible for inappropriate or unacceptable materials my child may acquire on the network system.

I hereby give my permission and approve the issuance of an electronic account for my child.

Parent or Guardian Name (please print): _____

Signature: _____ Date: _____
